

# COMMUNICATION FROM THE RACE DIRECTOR

COMMUNICATION NUMBER 01  
DATE OF COMMUNICATION: 26/06/2021

## EVENT NOTES

To amplify the detail given in the Driver's Briefing, please see below some additional Event Notes.

### 1. PRACTICE STARTS

- 1.1. A practice start may only be carried out by cars that are **on track** when the chequered flag is shown at the end of the free practice session. Cars that are in the pit lane when the chequered flag is shown **may not** rejoin the track for a practice start.
- 1.2. Practice starts may be carried out on the grid area only; **no** practice starts may take place in the pit lane, or after the qualifying session.
- 1.3. Cars on the track will take the chequered flag, then complete another lap slowly and with caution, and proceed to the grid and carry out **one** practice start.
- 1.4. Drivers are to pull as far forward on the grid as possible, and, if necessary, should wait for others to carry out a practice start before getting to a grid position further forward.
- 1.5. Under no circumstances should a driver make a practice start if another car is still stationary ahead of them on the same side of the grid.
- 1.6. No gantry lights will be operated during this practice start time; drivers are to make their start as soon as it is safe to do so when there are no cars ahead of them on the same side of the grid.
- 1.7. On completion of their practice start, drivers are to proceed slowly and with caution round the track to leave the track into the support paddock after Turn 8, as detailed in the Driver's Briefing.
- 1.8. It must be understood that this practice start period is a concession from F1 on the timetable; if any driver appears to be disregarding any of the above a red flag will be displayed and the possibility to carry out any more practice starts will be terminated.

### 2. OFFICIAL NOTICE BOARD

- 2.1. The official notice board is in the W Series Simulator Room. To amend the detail given in the Driver's Briefing, please see below some additional Event Notes.

### 3. PIT EXIT

3.1 Drivers must keep to the right of the solid white line at the pit exit when leaving the pits.

### 4. PIT ENTRY

4.1 For safety reasons drivers must keep to the right of the white line preceding the pit entry which starts approximately 50 metres before Turn 9.

4.2 Except in cases of force majeure (accepted as such by the Stewards), the crossing by any part of the car, in any direction, of the white line immediately prior to the pit entry or of the painted area between the pit entry and the track, by a driver who, in the opinion of the Stewards, had committed to entering the pit lane, is prohibited.

### 5. TRACK LIGHT PANELS DISPLAYING PIT ENTRY STATUS

5.1 The light panels on the left side of the track approaching Turn 9 (see attached Pit Lane map) will display a flashing yellow arrow if cars are required to use the pit lane once the Safety Car has been deployed during a race.

5.2 These light panels will display a flashing red cross if the pit lane is closed at any point during the race.

### 6. TRACK LIMITS

6.1 **Turn 9 Exit:** A lap time achieved during any practice session or the race by leaving the track and cutting behind the red and white kerb on the exit of Turn 9 will result in that lap time being invalidated by the Stewards.

6.2 **Turn 10 Exit:** A lap time achieved during any practice session or the race by leaving the track and cutting behind the red and white kerb on the exit of Turn 10 will result in that lap time **and the immediately following lap time** being invalidated by the Stewards.

6.3 **General; Turns 9 and 10:** On the third occasion of a driver failing to negotiate Turn 9 exit and/or turn 10 exit by using the track as described above during the race, they will be shown a black and white flag. Any further incidents will be reported to the Stewards.

6.4 In all cases detailed above, the driver must only rejoin the track when it is safe to do so and without gaining a lasting advantage.

6.5 The above requirements will not automatically apply to any driver who is judged to have been forced off the track; each such case will be judged individually.

## 7. CAR NUMBER LIGHT PANELS FOR THE START

7.1 These are on the right side of the grid. They will show the **start place number**.

Andy Holley

W Series Race Director
